

Next Radio Limited

Standalone Financial Statements for the year ended March 31, 2026

INDEPENDENT AUDITOR'S REPORT

To the Members of Next Radio Limited

Report on the Audit of the Financial Statements**Opinion**

We have audited the financial statements of Next Radio Limited ("the Company"), which comprise the Balance sheet as at March 31, 2026, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of the Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph (vi) below on reporting under Rule 11(g);
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under section 143(3)(b) and serial number (vi) of paragraph (i) below on reporting under Rule 11(g).
 - (g) With respect to the adequacy of the internal financial controls with reference to financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (h) In our opinion and explanation given to us, there are no directors to whom remuneration is paid/payable in accordance with the provisions of section 197 read with Schedule V to the Act.
 - (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 35 (ii) to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 47 (vi) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 47 (vii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. No dividend has been declared or paid during the year by the Company.
- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account and certain sub-systems supporting revenue process and payroll process, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, for a sub-system supporting revenue process, in the absence of Service Organization Controls (SOC) report covering the audit trail feature at a database level, we are unable to comment on whether audit trail feature was enabled and operated throughout the year (refer note 48 to the financial statements). Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail of prior years have been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in those respective years.

Annexure '1' referred to in paragraph under the heading "Report on other legal and regulatory requirements" of our report of even date

Re: Next Radio Limited ("the Company")

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangibles assets.
- (b) All Property, Plant and Equipment were physically verified by the management during the year in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of its assets.
- (c) There is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report on clause 3(i)(c) of the Order is not applicable to the Company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2026.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) Physical verification of inventory has been conducted at reasonable intervals during the year by management. In our opinion, the coverage and procedure of such verification by the management is appropriate.
- (b) The Company has not been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii) (a) During the year the Company has provided loans to companies as follows:

	Loans
Aggregate amount granted/ provided during the year - fellow subsidiary	Rs 41 lakhs
Balance outstanding as at balance sheet date in respect of above cases - fellow subsidiary	3,892 lakhs

During the year the Company has not provided advances in the nature of loans, stood guarantee and provided security to companies, firms, Limited Liability Partnerships or any other parties.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (b) During the year terms and conditions of the grant of all loans and advances are not prejudicial to the Company's interest.
 - (c) The Company has granted loan during the year to companies where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.
 - (d) There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.
 - (e) There were no loans or advance in the nature of loan granted to company which was fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
 - (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to company. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
- (iv) The Company has not made any investments and has not given any guarantees/ provided security to which the provisions of section 186 apply. In respect of loan given by the Company, provisions of sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to service provided by it, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (b) The dues of goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess, and other statutory dues have not been deposited on account of any dispute, are as follows:

S.R. BATLIBOI & ASSOCIATES LLP

(viii)

The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company

(ix) (a)

The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause ix(a) of the Order is not applicable to the Company.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company did not have any term loans outstanding during the year hence, the requirement to report on clause (ix)(c) of the Order is not applicable to the Company.
- (d) The Company did not raise any funds during the year hence, the requirement to report on clause (ix)(d) of the Order is not applicable to the Company.
- (e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.
- (f) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on Clause 3(ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) No material fraud by the Company or no material fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by auditors in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) (a) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a), 3(xii)(b) and 3(xii)(c) of the Order is not applicable to the Company.
- (xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.
- (b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

- (c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.
- (d) There is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.
- (xvii) The company has not incurred any cash losses in the current financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in note 50 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) The provisions of Section 135 to the Companies Act, 2013 in relation to Corporate Social Responsibility is not applicable to the Company. Accordingly, the requirement to report on clause 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.

**ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE
FINANCIAL STATEMENTS OF Next Radio Limited
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies
Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of Next Radio Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and

S.R. BATLIBOI & ASSOCIATES LLP

Chartered Accountants

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

1. Corporate information

Next Radio Limited ('the Company') is a public Company domiciled in India and incorporated under the provisions of Companies Act, 1956. Next Radio Limited is engaged in the business of a private FM broadcasting and presently has established "Radio One" as a FM Brand in 6 cities of the country being Delhi, Mumbai, Kolkata, Bangalore, Pune, and Ahmedabad.

Post year-end, the Board approved closure/surrender of specific radio stations as part of restructuring. The decision to surrender has been necessitated by the sustained and extreme recurring financial losses incurred in the operation of the specific radio stations over the past several years, rendering the venture commercially unviable (refer note 49).

The Company's principal revenue stream is advertising. Advertising revenues are generated through the sale of air time in the Company's FM radio broadcasting stations, activations and monetization of Company's other media properties. The Company also pursues other related activities.

Consequent to conversion of Loan taken by the Company from HT Media Limited (Holding Company) into Equity, in accordance with regulatory approvals, the Company became a direct subsidiary (rather than being a step-down subsidiary) of HT Media Limited w.e.f. February 7, 2025. Accordingly, Next Mediaworks Limited no longer controls Next Radio Limited.

The registered office of the Company is located at Unit 701 A, 7th Floor, Tower-2, Indiabulls Finance Centre, Senapati Bapat marg, Elphinstone Road, Mumbai-400013.

Information on related party relationship of the Company is provided in Note 37.

The financial statements of the Company for the year ended March 31, 2026 are approved for issue in accordance with a resolution of the Board of Directors on May 22, 2026.

1.1 Material accounting policies followed by Company

1.1.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (as amended from time to time), (Ind AS compliant Schedule III), as applicable.

The accounting policies are applied consistently to all the periods presented in the financial statements.

The standalone financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lacs as per the requirement of Schedule III, unless otherwise stated.

The standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

2.1 Summary of material accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Company has identified twelve months as its operating cycle.

b) Foreign currencies

The Company's financial statements are presented in INR, which is also the parent Company's functional currency. The Company determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions and Balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses monthly average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on the settlement of monetary items or on restatement of the Company's monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, are recognized as income or as expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

c) Fair value measurement

The Company measures financial instruments, such as, derivatives and certain investments at fair value at each reporting/ balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

d) Revenue recognition and other Income

Revenue from contracts with customers is recognised when control over services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Company applies the most likely amount method or the expected value method to estimate the variable consideration in the contract. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The most likely amount is used for those contracts with a single volume threshold, while the expected value method is used for those with more than one volume threshold. The Company then applies the requirements on constraining estimates in order to determine the amount of variable consideration that can be included in the transaction price and recognised as revenue.

The Company applies the practical expedient to not to disclose the amount of the remaining performance obligations for contracts with original expected duration of less than one year.

Revenue excludes taxes collected from customers. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to and credit risks.

Goods and Service Tax (GST) is not received by the Company on its own account. Rather, it is tax collected on behalf of the government. Accordingly, it is excluded from revenue.

Contract assets and other receivables

Contract asset represents the Company's right to consideration in exchange for services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time.

When there is unconditional right to receive cash, and only passage of time is required to do invoicing, the same is presented as Unbilled receivable.

Contract liability

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services and the Company is under an obligation to provide only the goods or services under the contract. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

The specific recognition criteria described below must also be met before revenue is recognised:

Airtime revenue

Revenue from radio broadcasting categorised in Free Commercial Time (FCT) and Pure Money is recognized on the airing of client's commercials.

Event related

Event/Conference revenue is recognized on the completion of event activity and sum received in advance, if any, for event is recognized as advance from customers.

Interest income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Management support service income

Income from management support service is recognised as per the terms of contract with customers.

e) Taxes

Current income tax

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

GST/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

f) Property, plant and equipment

The Company has applied for one time transition option of considering the carrying cost of Property, Plant & Equipment on the transition date i.e. April 01, 2016 as the deemed cost under Ind-AS.

Construction in progress is stated at cost, net of accumulated impairment losses, if any. Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

Cost comprises the purchase price, borrowing costs if capitalization criteria are met and any directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Recognition:

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if:

- (a) it is probable that future economic benefits associated with the item will flow to the entity; and
- (b) the cost of the item can be measured reliably.

All other expenses on existing assets, including day- to- day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Next Radio Limited**Notes to financial statements for the year ended March 31, 2026****Depreciation methods, estimated useful life and residual value**

Depreciation on Property, Plant and Equipment, other than leasehold improvements, is provided on straight line method as per the useful life and in the manner specified in Schedule II to the Companies Act, 2013 (other than Plant and machinery –Transmission*).

Leasehold improvements are depreciated on straight line basis, over the lease period.

The estimated useful lives used by the Company to compute depreciation are as under:

Type	Useful lives estimated by the management (in years)
Building (Including compensation paid for use of land)	60
Plant and machinery – Studio	3-15
Plant and machinery –Transmission*	15
Furniture and fixtures	10
Office equipment	5
Motor vehicles	8
Leasehold improvements	Life based on lease period
Computers	3
Computers – Servers	6

*The Company, based on technical assessment made by the management depreciates "Plant and machinery –Transmission" over estimated useful life which is different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management has estimated, supported by technical assessment, the useful lives as 15 years. The useful life is higher than those indicated in Schedule II. The management believes that the estimated useful life is realistic and reflects fair approximation of the period over which the asset is likely to be used.

Property, Plant and Equipment which are added/disposed off during the year, depreciation is provided on pro-rata basis with reference to the month of addition/deletion.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Expenditure directly attributable to construction activity is capitalized. Other indirect costs incurred during the construction periods which are not directly attributable to construction activity are charged to Statement of Profit and Loss. Reinvested income earned during the construction period is adjusted against the total of indirect expenditure.

The residual values, useful life and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Next Radio Limited**Notes to financial statements for the year ended March 31, 2026****g) Intangible assets**

On transition to Ind-AS, the Company has elected to continue with the carrying value of all of its Intangible assets recognised as at April 01, 2016 measured as per the Indian GAAP and use that carrying value as the deemed cost of the Intangible assets.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful life of intangible assets is assessed as either finite or indefinite.

Intangible assets with indefinite useful life are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss.

Intangible assets with finite life are amortized on straight line basis using the estimated useful life as follows:

Asset class	Useful lives estimated by the management
Non-refundable One Time Migration Fees for Radio License	15 years with effect from April 01, 2015
Computer software	3 years

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

h) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use asset are tested

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

As a practical expedient a lessee (the Company) has elected, by class of underlying asset, not to separate lease components from any associated non-lease components. A lessee (the Company) accounts for the lease component and the associated non-lease components as a single lease component.

i) Employee benefits

Short term employee benefits and defined contribution plans:

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc. are recognised in the statement of profit and loss in the period in which the employee renders the related service.

Employee benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Gratuity

Gratuity is a defined benefit scheme. The defined benefit obligation is Computed by actuaries using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring cost

Interest is calculated by applying the discount rate to the net defined benefit liability.

The Company recognises the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Interest expense

Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date. The Group recognises termination benefits at the earlier of the following dates: (a) when the group can no longer withdraw the offer of those benefits; and (b) when the Group recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

Compensated Absences

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the period end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability."

j) Impairment of non-financial assets

For assets with definite useful life, the Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded Company's or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

k) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets (other than trade receivables which is recognized at transaction price as per IND AS 115) are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Debt instruments at amortised cost
- Debt instrument at fair value through profit or loss (FVTPL)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

Debt instruments at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. This category includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109.

In addition, the Company may elect to designate a debt instrument which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

The net changes in fair value are recognised in the statement of profit and loss. In case of pure debt instruments included within the FVTPL category fair value changes including interest income are recognized in the Statement of Profit and Loss as "Finance income from debt instruments at FVTPL" under the head "Other Income".

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits, trade receivables and bank balance
- b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind-AS 115 (referred to as 'contractual revenue receivables' in these financial statements)

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables or unbilled receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the Statement of Profit and Loss. This amount is reflected under the head 'other expenses' in the Statement of Profit and Loss. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortized cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount. For assessing increase in credit risk and impairment loss. The Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables,

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified at amortised cost

Financial liabilities at amortised cost

Financial liabilities are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit and loss when the liabilities are derecognised as well as

Next Radio Limited**Notes to financial statements for the year ended March 31, 2026**

through the EIR amortisation process. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

l) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalent consists of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management. Cash flows from operating activities are being prepared as per the Indirect method mentioned in Ind AS 7.

m) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are only disclosed when it is probable that the economic benefits will flow to the entity.

n) Measurement of EBITDA

The Company has elected to present earnings before finance cost, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the face of profit/ (loss) from continuing operations. In the measurement, the Company does not include depreciation and amortization expense, finance costs and tax expense.

o) Earnings per share**Basic earnings per share**

Basic earnings per share are calculated by dividing:

-the profit attributable to owners of the Company

-by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

-the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

-the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

p) Exceptional items

Items of income or expense which are nonrecurring or outside of the ordinary course of business and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company are disclosed as exceptional items in the Statement of Profit and Loss.

q) Events after reporting period

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its separate financial statements. The Company will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its separate financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

1.1.3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The areas involving critical estimates are as below:

Property, Plant and Equipment

The Company, based on technical assessment and management estimate, depreciates certain assets over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management has estimated, supported by technical assessment, the useful lives of certain plant and machinery as 3 to 15 years. These useful lives are higher than those indicated in Schedule II. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Defined benefit plans

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 38.

Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent markets transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

The areas involving critical judgement are as below:

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax assessments and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the Companies.

Deferred tax assets are recognised for unused tax losses only to the extent that the entity has sufficient taxable temporary differences against which the unused tax losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Further details on taxes are disclosed in Note 36.

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

Determining the lease term of contracts with renewal and termination options – as lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

The periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

For further details about leases, refer to accounting policy on leases and Note 32.

1.1.4. Changes in accounting policies and disclosures

New and amended standards

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

(i) Amendments to Ind AS 21 - Lack of exchangeability

The Ministry of Corporate Affairs (MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2025, which amend Ind AS 21, The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments are effective for annual reporting periods beginning on or after April 01, 2025. When applying the amendments, an entity cannot restate comparative information.

The amendments do not have a material impact on the Company's financial statements.

(ii) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

In August 2025, the MCA notified amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

Next Radio Limited

Notes to financial statements for the year ended March 31, 2026

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

If there is a breach of a material covenant of a long term loan arrangement on or before the end of the reporting period, resulting in the liability becoming payable on demand as at the reporting date, and the lender agrees—after the reporting period but before the financial statements are approved for issue—not to demand repayment for at least 12 months as a consequence of the breach, this shall be treated as an adjusting event. Accordingly, the entity is not required to classify the liability as current.

The amendments are effective for annual reporting periods beginning on or after April 01, 2025 retrospectively in accordance with Ind AS 8.

The amendments does not have any impact on the Company's financial statements.

(iii) Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements

In August 2025, the MCA notified amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendment had no impact on the Company's financial statements as the Company has not entered any contracts of such nature.

(iv) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12

In August 2025, the MCA notified amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after April 01, 2025, but not for any interim periods ending on or before March 31, 2026.

The amendments had no impact on the Company's financial statements as the Company is not in scope of the Pillar Two model rules.

b Terms of equity shares

The Company has only one class of equity shares having par value of INR 10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. The dividend proposed, if any, by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except for the Interim Dividend. In the event of liquidation, the holders of the equity shares will be entitled to receive the remaining assets of the Company after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by shareholders.

Payment of lease liability (Principal) (considered below for cash flow)	(140)	
Pre payments (considered below for cashflow)	(217)	
Derecognition of lease liability	(159)	
Payment of lease liability (Interest)	(125)	
Balance at March 31, 2025	1,287	
Additions		
Accretion of interest	100	
Payment of lease liability (Principal) (considered below for cash flow)	(33)	
Derecognition of lease liability	(314)	
Payment of lease liability (Interest)	(18)	
Balance at March 31, 2026	1,022	
Current	179	
Non- Current	843	
Balance at March 31, 2025	1,287	
Current	45	
Non- Current	1,242	

The maturity analysis of lease liabilities are disclosed in Note 42.

iii) Amounts recognised in profit or loss:

Particulars	(INR Lacs)	
	March 31, 2026	March 31, 2025
Interest on lease liabilities	100	125
Depreciation expense of right-of-use assets	172	204
Expenses relating to short-term leases	124	135

iv) Amounts recognised in statement of cash flows:

Particulars	(INR Lacs)	
	March 31, 2026	March 31, 2025
Total cash outflow for leases	33	357

The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised (refer Note 2.3).

33 Loss per share

Basic loss per share amounts are calculated by dividing the loss for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted loss per share amounts are calculated by dividing the loss attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted loss per share computations:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Total loss attributable to equity holders (INR Lacs)	(4,797)	(2,251)
Weighted average number of Equity shares for basic and diluted loss per share (post conversion of loan taken from HTML converted into Equity as on February 7, 2025 [refer note 16])	28,77,40,740	10,59,43,091
Loss per share		
Basic (Nominal value of share INR 10/-)	(1.67)	(2.12)
Diluted (Nominal value of share INR 10/-)	(1.67)	(2.12)

34 Segment reporting

In accordance with Ind AS-108 'Operating Segments', the Company's operating segment is Media and Entertainment and it has no other primary reportable segments. Considering the nature of operations and the manner in which the chief operating decision maker of the Company reviews the operating results, the Company has concluded that there is only one operating segment. Accordingly, the segment revenue, segment results, total carrying amount of segment assets and segment liabilities, total cost incurred to acquire segment assets and total amount of charge for depreciation during the year, are as reflected in the Financial Statements as at and for the year ended March 31, 2026. The geographical revenue is allocated based on the location of the customers. The Company primarily caters to the domestic market and hence it has been considered as to be operating in a single geographical location.

Information about major customers:

There is no customer who represented 10% or more of the Company's total revenue for the year ended March 31, 2026, Also there was no customer who represented 10% or more of the Company's total revenue for the year ended March 31, 2025.

35 Commitments and contingencies**(i) Guarantees**

No guarantee was issued during the year ended March 31, 2026 and March 31, 2025

(ii) Contingent liabilities

Claims against the Company not acknowledged as debts:

Legal claim contingency:

In respect of Income tax demand under dispute INR 48 lacs (Previous Year INR 39 lacs) against the same company has paid tax under protest of INR 12 lacs (Previous year INR 10 lacs). The tax demands are mainly on account of disallowances of expenses claimed by the Company under the Income Tax Act and on account of mismatch between Form 26AS and books of account.

In respect of Service tax demand under dispute INR 121 lacs (Previous Year INR 121 lacs) against the same company has paid tax under protest of INR 4 lacs (Previous year- INR 4 lacs). The tax demands are mainly on account of Input Tax credit disallowances under the Cenvet credit rules, 2004.

In respect of GST demand order of INR 115 lacs (Previous year- INR 179 lacs), against the same company has paid tax under protest of INR 23 lacs (Previous year - INR 9 lacs).

Based on management assessment and current status of the above matter, the management is confident that no provision is required in the financial statements as on March 31, 2026.

(iii) Commitments

Estimated amount of contracts remaining to be executed on capital account is Nil (previous year Nil).

36 Income Tax

38 Employee Benefits

The Company has classified the various benefits provided to the employees as under.

Defined Contribution Plans

i. Provident Fund

The Company has recognised INR 26 lacs (previous year INR 26 lacs) in Profit and Loss Statement towards employer's contribution to provident fund.

Define Benefit Plan: Gratuity

The Company has a defined benefit gratuity plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Every employee who has completed five years or more of services gets a gratuity on separation at 15 days salary (last drawn salary) for each completed year of service.

In accordance with the Indian Accounting Standards (Ind AS 19), actuarial valuation was performed in respect of the aforesaid defined benefit plans based on the following assumptions:

Assumption	As at March 31, 2026	As at March 31, 2025
Discount Rate	6.45%	6.80%
Rate of Increase in compensation levels (pa)	0.00% for first 1 year, and 5.50% thereafter	6.00% pa
Mortality Rate	Indian Assured Lives Mortality (2012-14) Ultimate	Indian Assured Lives Mortality (2012-14) Ultimate
Attrition Rate	30%	30%

The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the funded status and amounts recognized in the balance sheet :

(INR Lacs)		
a. Change in the present value obligation		
Particulars	Year ended March 31, 2026	Year ended March 31, 2025
Present value of defined benefit obligation as at beginning of the year	26	27

Liability at the beginning of the year	22	18
Benefits paid during the year	(2)	(3)
Expense for current service (recognised under "Salaries, wages and bonus" in profit or loss)	14	7
Past service cost (Exceptional income recognised in profit or loss)	(2)	-
Liability at the end of the year	32	22

Next Radio Limited
Notes to financial statements for the year ended March 31, 2026
39 Exceptional items (loss) (net)
(INR Lacs)

Particulars	March 31, 2026	March 31, 2025
Impairment of Intangible Assets:		
-from continuing stations (refer note I)	46	203
-on account of surrender of radio licenses (refer note II below)	625	-
Impairment of Property, Plant and Equipment:		
-from continuing stations (refer note I)	6	48
-on account of surrender of radio licenses (refer note II below)	68	-
Impairment of Right-of- use assets:		
-from continuing stations (refer note I)	21	88
-on account of surrender of radio licenses (refer note II below)	95	-
Impairment of Advances/Pre-paid expenses on account of surrender of radio licenses (refer note II below)	348	-
Rent provision for notice period on account of surrender of radio licenses (refer note II below)	35	-
Gain on account of lease termination on account of surrender of radio licenses (refer note II below)	(109)	-
Provision for diminution in value of inter corporate deposits since going concern assumption of Next Mediaworks Limited is no longer appropriate (refer note III below)	3,684	-
Statutory impact of new Labour Codes (refer note IV below)	81	-
Total	4,900	339

Note I:

For year ended March 31, 2026: As the recoverable amount of Cash Generating Unit ("CGU") is lower than the carrying amount of assets, the Company has recognised net impairment loss of INR 46 lacs towards Radio Licenses and INR 6 Lacs towards Property, Plant and Equipment and INR 21 lacs towards Right-of- use assets as an exceptional item. The recoverable amount of CGU is based on its value in use which was determined to be INR 101 lacs using discount rate in range of 15.5%. The same is being compared with the carrying amount of CGU as at March 31, 2026 to assess impairment. For this purpose, each radio station has been considered as a separate CGU.

For year ended March 31, 2025: As the recoverable amount of Cash Generating Unit ("CGU") is lower than the carrying amount of assets, the Company has recognised net impairment loss of INR 203 lacs towards Radio Licenses and INR 48 lacs towards Property, Plant and Equipment and INR 88 lacs towards Right-of- use assets as an exceptional item. The recoverable amount of CGU is based on its value in use which was determined to be INR 1,715 lacs using discount rate in range of 15.5%. The same is being compared with the carrying amount of CGU as at March 31, 2025 to assess impairment. For this purpose, each radio station has been considered as a separate CGU.

Note II

The Company has recognised net exceptional loss of INR 1,062 lacs on account of filing application with MIB for surrender of specific radio licenses of NRL. It comprises of:

	(INR Lacs)
Impairment of Intangible Assets*	625
Impairment of Property, Plant and Equipment*	68
Impairment of Right-of- use assets*	95
Impairment of Advances/Pre-paid expenses*	348
Rent provision for notice period on account of contractual obligations	35
Gain on account of lease termination	-109
Total	1,062

* As the recoverable amount of Cash Generating Unit ("CGU") is lower than the carrying amount of assets, the Company has recognised impairment loss of INR 625 lacs towards Radio Licenses, INR 68 lacs towards Property, Plant and Equipment, INR 95 lacs towards Right-of- use assets and INR 348 lacs towards Advances/Pre-paid expenses as an exceptional item. The recoverable amount of CGU is based on fair value less costs of disposal (Level III valuation). The recoverable value is based on Net Assets Value (NAV) which was determined to be INR Nil. The same is being compared with the carrying amount of CGU as at March 31, 2026 to assess impairment. For this purpose, each radio station has been considered as a separate CGU. There are no significant unobservable inputs or key assumptions that would result in a material sensitivity to the recoverable value for the year ended March 31, 2026.

Note III

For year ended March 31, 2026: Next Mediaworks Limited (fellow subsidiary) does not have any business operations, operating cash flows and any definitive business plans. Next Mediaworks Limited's ability to settle the inter-corporate borrowing which is contractually due for repayment in August 2027, is uncertain. The management of Next Mediaworks Limited has assessed that the going concern assumption of Next Mediaworks Limited is no longer appropriate. On this ground, the Company has recognised expected credit loss of INR 3,684 lacs in respect of loan given to Next Mediaworks Limited. The same is being presented as an exceptional item being non-recurring in nature.

Note IV

On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company has assessed and disclosed the incremental impact of these changes on the basis of the best understanding of the new regulations. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented such incremental impact under Exceptional Items in the financial statement for year ended March 31, 2026. The incremental impact consists of gratuity of INR 83 lacs and long-term compensated absences of INR (2) lacs. The Group continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effects on the basis of such developments as needed.

42 Financial risk management objectives and policies

The Company's principal financial liabilities, comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial assets include trade & other receivables and cash and cash equivalents that derive directly from its operations.

The Company is exposed to credit risk, liquidity risk, foreign currency risk and interest rate risks. The Company's senior management oversees the mitigation of these risks. The Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The policies for managing each of these risks, which are summarized below:-

1 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk. Financial instruments affected by market risk include loans and borrowings, deposits and derivative financial instruments.

a Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. On account of absence of borrowings, the Company does not have exposure to interest rate risk.

b Foreign currency risk

Foreign currency risk arises due to the fluctuations in foreign currency exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates to the Company's operating activities (when revenue or expense is denominated in a foreign currency) is not material.

2 Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables), Inter Corporate Deposits given to related parties, other financial assets, financial investments and deposits with banks.

a Trade receivables, Loans given and Other Financial Assets at amortised cost

An impairment analysis is performed at each reporting date on an individual basis for major clients. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 5, 6, 11, and 14. The Company does not hold collateral as security.

The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The Company based on internal assessment which is driven by the historical experience/ current facts available in relation to default and delays in collection thereof, the credit risk for trade receivables is considered low. Refer Note 11 for movement in expected credit loss allowance of trade receivables.

The Company uses the expected credit loss model as per IND AS 109 - 'Financial Instruments' to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix considers available external and internal credit risk factors and the Company's historical experience in respect of customers.

Expected credit loss for trade receivables and unbilled revenue as at March 31, 2026

Particulars	Unbilled	Not Due	Less than 6 months	6 months -1 year	1-2 years	2-3 years	More than 3 years	Total
Gross carrying amount	1	847	234	91	88	86	254	1,601
Expected credit loss rate (in %)	0%	0%	8%	45%	56%	69%	100%	
Expected credit losses (simplified approach for loss allowance provision)	-	-	18	41	49	59	254	421
Net carrying amount	1	847	216	50	39	27	-	1,180

Expected credit loss for trade receivables and unbilled revenue as at March 31, 2025

Particulars	Unbilled	Not Due	Less than 6 months	6 months -1 year	1-2 years	2-3 years	More than 3 years	Total
Gross carrying amount	18	836	310	35	158	72	324	1,753
Expected credit loss rate (in %)	0%	0%	2%	100%	46%	83%	100%	
Expected credit losses (simplified approach for loss allowance provision)	-	-	5	35	73	60	324	497
Net carrying amount	18	836	305	-	85	12	-	1,256

Next Radio Limited**Notes to financial statements for the year ended March 31, 2026****b Financial investments and bank deposits**

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made as per guidelines and within limits approved by Board of Directors. Board of Directors/ Management reviews and update guidelines, time to time as per requirement. The guidelines are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The maximum exposure to credit risk at the reporting date is the carrying value of investment and bank deposits as disclosed in Note 6,10,12,13 and 14. The Company does not hold any collateral as security.

3 Liquidity Risk

Liquidity risk is defined as a risk that the Company will not be able to settle or meet its obligations on time. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the Senior Management.

The Company has positive working capital position and positive Net Assets position as on March 31, 2026. Accordingly, no liquidity risk is perceived. The Company has available undrawn borrowing facilities of INR 582 lacs as at March 31, 2026 (March 31, 2025: INR 1,587 lacs).

Maturities of financial liabilities

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Particulars	March 31, 2026		March 31, 2025	
	Less than 1 year	More than 1 year	Less than 1 year	More than 1 year
Lease liabilities	248	957	298	1,549
Other financial liabilities	149	25	146	24
Trade payables	618	-	681	-
	1,015	982	1,125	1,573

(INR Lacs)

43 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves. The primary objective of the Company's capital management is to maximise the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may return capital to shareholders or issue new shares. The entire source of funding is through equity.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2026 and March 31, 2025.

Fair value measurement

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	Carrying amount		Fair Value		Fair value measurement hierarchy level	(INR Lacs)
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025		
Financial assets measured at amortised cost						
Loan to related party (refer note 5)	-	3,443	-	-		
Deposits with bank held as margin money (refer note 6)	66	-	-	-		
Security deposits (refer note 6 & 14)	121	167	-	-		

The management assessed that fair value of current Investment in mutual fund, trade receivables, cash and cash equivalents, other bank balances, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

45 Standards issued but not yet effective:

The new and amended standards that are notified by the Ministry of Corporate Affairs (MCA), but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company will adopt these new and amended standards, when they become effective.

(i) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants and Ind AS 10 Events after the Reporting Period

Ind AS 10 has been amended to remove the previous treatment under which a lender's post-reporting-date waiver—granted before the financial statements were approved for issue—of a breach of a material covenant in a long-term loan arrangement that occurred on or before the end of the reporting period, resulting in the liability becoming payable on demand at the reporting date, was regarded as an adjusting event.

For annual reporting periods beginning on or after April 01, 2026, any breach of a covenant—whether material or immaterial—occurring on or before the reporting date will, in accordance with Ind AS 1, require the related liability to be classified as current, unless the lender has granted a waiver of the breach on or before the reporting date and has agreed not to demand repayment for at least 12 months after the reporting date as a consequence of the breach. Such a waiver shall be treated as an adjusting event.

The amendments are effective for annual reporting periods beginning on or after April 01, 2026 retrospectively in accordance

46 Based on the information available with the Company, Details of dues to Micro and Small Enterprises as defined under the MSMED Act, 2006

Particulars	(INR Lacs)	
	As at March 31, 2026	As at March 31, 2025

Further, the Company is using Aquira and Darwinbox sub-systems for maintaining and processing revenue and payroll records respectively which are operated by third party software service providers, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, the Company is using Salesforce sub-system for maintaining and processing of revenue records which is operated by third party software service provider, whose independent auditor has not covered the testing off audit trail at database level in its SOC Type II report.

Further, there are no instance of audit trail feature being tampered with. Additionally, the audit trail of prior years have been preserved as per the statutory requirements for record retention to the extent it was enabled and recorded in those prior years.

49 Events after the reporting period

Post year-end, the Board approved closure/surrender of specific radio stations as part of restructuring. The decision to surrender has been necessitated by the sustained and extreme recurring financial losses incurred in the operation of the specific radio stations over the past several years, rendering the venture commercially unviable. It is a non-adjusting event under Ind AS 10, since no obligating conditions existed as at March 31, 2026. However, the same has been considered for impairment testing purposes.
